

Figure 1. Vowel Formant Frequencies for Participant [insert name]

bʊt byt but

Notes:

- 1) Use this as a template for plotting vowel frequencies. If you can figure out how to overlay typed IPA symbols, great; if not, by hand is fine (but make them legible!)
- 2) You can copy and paste this into a Word / OpenOffice document; print and scan, or print and cut out and glue (!) into your assignment
- 3) If it looks cluttered and messy with diphthongs and vowels on the same chart, use two charts.
- 4) Change 'figure 1' and 'insert name' accordingly ...
